A Monthly Insight Into Our Syracuse City Community

## MAYOR'S MESSAGE

On the 21st of August, I ventured to Idaho to witness the solar eclipse. A partial eclipse could be seen in many places in the United States, but millions of people chose to travel to the path of totality, some even paying thousands of dollars, to watch the moon approach and totally eclipse the sun.

Previous to this, the last solar eclipse to cross the United States was 99 years ago, so this was a once-in-a-lifetime event for many people. A total eclipse is considered a marvel today just as it has been for hundreds of years. What did people think 99 years ago, or even in 1780, when an eclipse of the sun crossed this land? Changing lights in the heavens have been looked at as a warning and a reminder that we should always be prepared for what may happen.

This recent eclipse can be a reminder for us to evaluate our preparedness for disasters that may come our way. Syracuse City has a Disaster Preparedness Committee whose purpose is to provide information on what we can do to be prepared for a variety of difficult situations. Their information is on the city website and YouTube videos are available to help citizens become more prepared. <http://syracuseut.com/EmergencyPrep/DisasterPrepCommittee.aspx>

~Mayor Terry Palmer

## POLICE DEPARTMENT

As kids go back to school, it is a good time for a few safety reminders. Several changes have, or will, occur in our community that directly affect areas and routes that youth use for school.

The area on 2000 West near Syracuse High School will still be partly under construction. Under the best of conditions, this area is very congested in the mornings and after school; the construction will increase this congestion. Allow some additional travel time and remind young drivers to use extra caution, especially when making left hand turns.

The area in front of Syracuse Elementary School and Syracuse Junior High School has a new overhead signal. With the installation of this overhead signal, the reduced speed school zone signs and lights have been removed. Slow down in this area when children are present and be alert for changing colors and patterns of the lights on the overhead signal.

The area of 1450 W 1700 S will be getting an intersection light. This should provide a safer route for children using the crosswalk in this area, but since it is a change to past traffic patterns, motorists need to pay special attention in this area.

Encourage children to walk or ride bikes in groups. Remind them to watch out for cars and to follow the instructions of crossing guards. Talk to children about stranger danger. Tell them not to talk to strangers, go anywhere with a stranger, or accept gifts from strangers without your permission.

Remember that impatience results in dangerous driving behavior around children. Please follow traffic laws, as well as the school's drop off and pick up plans. Slow down for school zones. Be respectful to residents who live near schools; do not park on their property or block their driveway access. Additionally, please remember to wear seatbelts and ensure children are in the appropriate booster or car seat. More info go to [highwaysafety.utah.gov/seat-belts-and-car-seats/](http://highwaysafety.utah.gov/seat-belts-and-car-seats/)

## FIRE DEPARTMENT

September is National Preparedness Month, and what a great time to evaluate your personal, family and business emergency preparedness!! Our local Syracuse Emergency Preparedness Committee has put together some very good resources to help us get started. just click on the Emergency Prep tab from the [www.syracuseut.com](http://www.syracuseut.com) web page, or go directly to the site from any web browser at [www.syracuseprepares.com](http://www.syracuseprepares.com). There is guidance on everything from communications to flooding to solar energy!

Now is a great time to be sure you can communicate during emergencies by having up-to-date contact information for those you may need to get in touch with during a disaster (school-aged children, spouse, employer). Establish alternate methods of communication in case traditional means are not available.

Making a Family Emergency Communication Plan is a great way to prepare for disasters, but testing your plan is even better so you'll be familiar with how to respond. Don't just assume your mobile phone is going to do what you want it to do.

Residents of Syracuse are encouraged to register your phone number with **CodeRed**, the Public Notification System for land-line phone and mobile phone alerts used by Davis County. Log on [www.syracuseprepares.com](http://www.syracuseprepares.com) click the 'Sign Up For **CodeRed**' link, then complete the form. At the top of the page is a link to **CodeRed**. Register your phones and spread the word to your neighbors and those who may need help with Internet registration of their phone.

On **September 15th**, Syracuse City will send out a test **CodeRed** message so you will know how the system works and make sure your registration is effective. Don't procrastinate! Register today!

### Helpful Info for Pedestrians:

**1. Look Left 2. Look Right 3. Look Left one more time, and . . . 4. Make eye contact with the driver of an approaching vehicle, so that you make sure that you see them, and that they see you and understand that you want to cross. 5. Cross the street ONLY when the vehicle has stopped, or completely passed the crosswalk.**

Davis County handles mosquito abatement. For great information and for spray requests visit [www.davismosquito.org](http://www.davismosquito.org)

For building and equipment maintenance, cover all waste material, (garbage) with a durable, non-leaking cover and anchor in a way to keep water from entering a garbage can or dumpster. Keep hazardous and non-hazardous wastes separate. And make sure there are labels on all containers. This is a good way to prevent pollutants from entering the storm drain.
